COMMUNICATION

Communication software is not just for personal purposes. Every year, they are increasingly being used to solve business problems. It can be easily explained. Communicating and recording agreements in the Company's unified information system is one of the most important ways for staff to communicate.

The better the communication of the Company's personnel both inside and between the divisions, the higher the labor productivity and the higher the key production indicators.

THE COMMUNICATION MODULE PROVIDES THE USER WITH THE FOLLOWING FEATURES:

MESSAGING

DESIGNED FOR INSTANT MESSAGING:

- Text;
